

ENVIRONMENTAL POLICY

COMMITTED TO REALISE A
SUSTAINABLE, LOW CARBON FUTURE
DRIVING BUSINESS GROWTH

ABOUT SBS

Sustainable Business Services vision is to be a leader in sustainable business. Our sustainable business services will support, co-create and inspire our people, clients and stakeholders to collectively develop sustainable, innovative business practices to drive collective impact and financial performance consistently.

OUR FOUNDER

JAMES STANIFORTH

James is a member of IEMA , a BSI and NQA Associate Consultant, specialising in ISO 14064 and PAS2060 and a Climate Reality Leader. James founded SBS to make a difference and support businesses in realising a sustainable, low carbon and cost-effective future.

POLICY

The aim of the SBS environmental policy is to support the continued development of our business, whilst maintaining a high level of environmental performance and to be seen as a leader in the field of sustainability.

We aim to make a significant positive impact to both the environment, our people and local communities whilst delivering positive environmental impacts for our clients.

This policy covers all of Sustainable Business Services business activities.

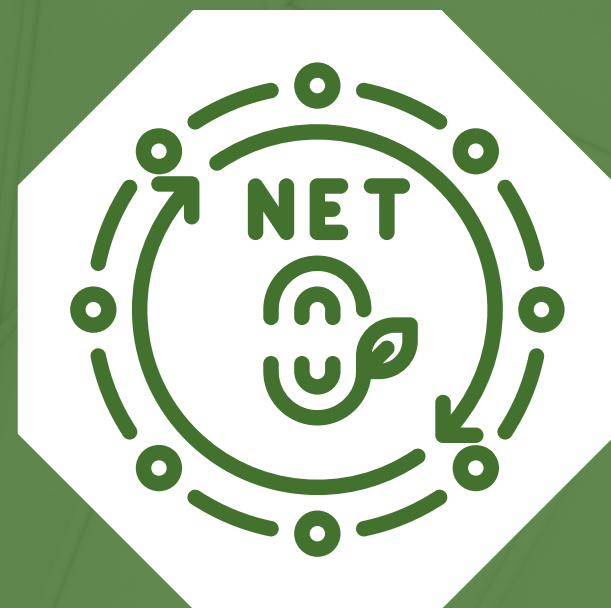

OUR APPROACH

We recognise that our business is integrally connected to the environment in which we operate, and that we have a moral responsibility to care and protect our natural world. We therefore set high environmental standards across our business.

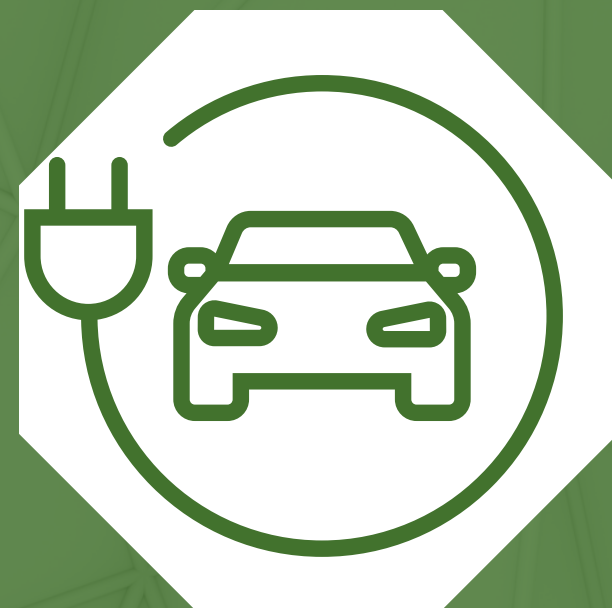

This policy reflects our dedication to sustainability and the well-being of the planet. We believe that by setting an example of environmental stewardship, we can inspire positive change and make a meaningful impact.

PEOPLE FIRST

IMPROVEMENT

PEOPLE FIRST

Our environmental policy is firmly rooted in our commitment to our people, recognizing that a sustainable future is only achievable through collective effort. We are dedicated to staff training and development, ensuring that every member of our team is equipped with the knowledge and skills to contribute to our environmental objectives.

Embracing diversity and inclusion, we foster a workplace where varied perspectives drive innovation for ecological stewardship. Our engagement extends beyond our immediate staff, reaching out to customers and supply chain partners to enact positive change within the wider community. Moreover, our staff inductions encapsulate our 'WHY'—the core reason behind our environmental endeavors—instilling a shared sense of purpose from the very beginning of our journey together.

NET-ZERO FUTURE

Our environmental policy is firmly committed to achieving a net zero future, a goal we approach with determination and leadership. We are actively reducing carbon emissions in line with Science Based Targets

A comprehensive measurement of the carbon footprint of all our business activities is underway to ensure transparency and accountability in our progress. With a target to reach Net-Zero by 2025, we are not only setting an ambitious goal but also paving a sustainable path forward

We are dedicated to promoting and developing services that support both our staff and customers in their net-zero ambitions, recognizing that collective action is essential for meaningful change. This policy reflects our dedication to environmental stewardship and a sustainable future for all.

TRAVEL

This policy underscores our commitment to sustainable travel. We prioritize virtual meetings, reducing unnecessary travel. We actively consider green transport alternatives and are dedicated to transitioning to electric vehicles (EVs) at the end of the current vehicle lifecycle. We encourage participation in cycle-to-work and car-sharing schemes, promoting eco-friendly commuting options among our team members.

WASTE

We aim to reduce consumption and use, minimizing waste at its source. Secondly, we prioritize the principles of reuse and recovery, extending the life cycle of resources. Lastly, recycling is a key component of our policy, ensuring materials are reprocessed and diverted from landfills. Together, these practices demonstrate our dedication to a sustainable future. Following the waste hierarchy at all times.

CUSTOMER

Our environmental policy is firmly rooted in our commitment to sustainability and education. We pledge to serve as sustainability champions for our clients, actively promoting net-zero initiatives and integrating sustainable practices across all our business services and products.

We are dedicated to utilizing the latest environmental technology to enhance our customers' efficiencies, supporting them in their journey towards a more sustainable future. Through continuous upskilling and education, we empower our stakeholders to make informed, sustainable decisions that contribute to our collective environmental goals.

CONTINUAL IMPROVEMENT

Our environmental policy is rooted in a commitment to continual improvement. We actively monitor and measure our performance against set objectives, ensuring that we are always moving towards enhanced environmental stewardship. Regular reviews of these objectives are conducted to foster ongoing advancement. Additionally, we hold our suppliers and partners to the same high standards of environmental performance, recognizing that collaboration is key to our collective sustainability efforts.
